AUBURN-CORD—DUESENBERG CLUB, INC.

AN ORGANIZATION FOR THE RESTORATION AND PRESERVATION
OF ORIGINAL, AUBURN, CORD AND DUESENBERG AUTOMOBILES

HARRY DENHARD, Founder

FOREWORD

The Auburn-Cord-Duesenberg Club is a non-profit organization incorporated under the laws of the State of Indiana. The Club is dedicated to the restoration and preservation of three of America's most advanced and outstanding motor cars — Auburn, Cord and Duesenberg. The Auburn-Cord-Duesenberg Club is composed of owners, former owners, and those sincerely interested in these cars who have joined together for the mutual benefits of all by exchanging suggestions, ideas, data, parts, etc. Enthusiasts are, like their cars a breed apart and because of this, contacts with others are necessary. The Club aims at promoting such contacts either by correspondence or personally. In addition, the Club strives to increase the usability and improve the reliability of these cars by means of Club sponsored projects.

Dues are \$20.00 for the calendar year. For those new members joining after June 30, dues will be \$12.00 for the remainder of the calendar year. Dues should be sent to the Membership Secretary. These funds are used to publish the **Newsletter**, to cover administration costs, and to defray the costs of various meets. The **Newsletter** is published 10 issues annually and contains news of interest to our members, feature articles, Technical Data, and a Sell-n-Swap, want ad section listing member's advertisements at no cost.

There are many back issues of the **Newsletter** available but not complete year's editions. Also available for sale are club items such as jacket/cap patches, bumper badges, Cord transmission books, note pads, etc. See Sell N' Swap section of **Newsletter** for information on how to order.

We urge all our members to participate in the local and national events sponsored by the Club and area members to realize the fullest advantages of Club Membership. In the past several years local areas and regions have organized and sponsored "informal" meets, picnics, and other social gatherings and we urge our members to continue and expand this activity for their mutual benefit of parts availability, technical information and in many instances actual help and reciprocal aid in maintaining and restoring these three classics to useable and / or show-winning condition.

SOME STATISTICS OF INTEREST

From the trend of our membership statistics, it appears that over the past several years we have stabilized at approximately 1795 members annually. New members joining have been off-set by a like number of non-renewals. Changing ownership of the cars no doubt plays an important part in this membership roll-over.

We have members in 48 of our 50 states plus a number of foreign countries. While some of our members fail to list the cars they own, by last count of cars listed, members own as follows:

Auburns	18	V-12 Speedsters
Auburns	50	V-12 Other Models
Auburns	108	8 Cylinder Speedsters
Auburns	498	All Other Models
Cords	117	L-29
Cords	645	810-812
Duesenbergs	4	Race Cars
Duesenbergs	17	A & X
Duesenbergs	144	J & SJ

We personally know a number of cars which owners have failed to report on their membership renewal cards. We urge members to report their cars so that they can be listed in the Directory unless they have personal reasons for not doing so.

Our club will grow in strength from the enthusiasm of our members working as a contagion on their friends. We hope each of you will try to recruit any ACD owners or enthusiasts you may encounter in this great hobby. No doubt there are quite a few cars of our Marques still to be found among non-members. If you know of such an owner, by all means try to get him or her to become a member. If you sell an ACD car, make sure to remind the new owner to join the Club.

We sincerely miss the members who have neglected to renew their membership. We are convinced that many of these are merely an oversight or procrastination despite the probing and the "Final Reminder" notices. If your renewal arrives too late to be included in this Directory, we hope that you are continuing your membership and can be included in the next biennial Directory.

PAST PRESIDENTS OF THE ACD CLUB

Up to 1960, the Club functioned somewhat casually and the only officers to speak of was the Treasurer, who received dues, etc., income from a Membership Secretary, and disbursed according to vouchers and bills sent to him. We had a **Newsletter** staff that took care of the editing, publications, and distribution of the paper. These were all volunteers, and in 1959, for example, consisted of Lloyd Schafer, Joe Knapp, Paul Shaw, Reg Taverner, Jim Fox, Al Althouse and Robert Fabris. In late 1959 the articles of incorporation were ratified, and on January 16, 1960, the following Directors were elected by the incorporating members.

1 year term, John Lewis, Lloyd Schafer, Reg Taverner. (The incorporating members)

2 year term, Al Althouse, Jim Fox, Paul Shaw.

3 year term, Robert Fabris, William Kimber, Joe Knapp.

WAT ADAMS AWARD

The prestigious Wat Adams Award is given to Cord owners by a group of members within the club, not by the club itself. Candidates selected are members who enthusiastically drive their Cords to A.C.D. meets across the country and support the club in the same tradition that Wat Adams did.

“MORT” KRESTELLER AWARD

This Award goes to a deserving Auburn owner who promotes the Auburn auto and the ACD Club. It is in honor of the late Mort Kresteller who was an avid Auburn fan from California. He diligently promoted the Auburn Automobile and much of it's exposure today results from his earlier efforts. This award goes to a team, not the man or car alone. Recipiants have distinguished themselves in such a way that the Auburn car and the club have benefited from them.

Judging Procedures

The ACD Club is "An Organization of the Restoration and Preservation of Original Auburn, Cord and Duesenberg Automobiles." The word "restoration" is defined as the act of returning an object to the original state. The word "preservation" describes the maintenance of an original state and condition as opposed to alteration. Thus, authenticity is the prime factor in the judging process. The new judging form lists more points for authenticity than for condition, particularly regarding the interior, the engine, chassis and metal plating, while the exterior metal work and paint gain the most points for their condition.

JUDGES ROSTER

Judging serves the important function of encouraging the restoration and preservation of our ACD heritage. The Auburn-Cord-Duesenberg Club is grateful for the services rendered by the following members to perform the arduous but necessary task of judging cars at the various meets over the years. Judges whose names have not been listed are requested to write to the Chief Judge so that proper recognition may be given in the next printing of the roster. Club members are encouraged to volunteer for service in a category of their choice; additional help is always welcome. Judging seminars are held at the Auburn reunions.

* Ten or more years of Judging Service.

JUDGING RULES

1. When a car wins first place in the Primary Class at any ACD sanctioned meet it goes into the Senior Class at the next ACD Club sponsored meet, regardless of area or a change of ownership.
2. Reversions from Senior to Primary:
A car cannot revert from Senior to Primary class without having been sold to another party and the new owner requesting such revision after two years of ownership, during which time the car has failed to win a first, second, or third place at any ACD Meet. Mere non-attendance at meets does not constitute failure to win.
3. The official judging form is printed below in this directory. Car owners are encouraged to review these forms.

4. Auburn, Cord and Duesenberg automobiles may be eligible for judging and awards if the entry fulfills the following criteria:
 - A. **ENTRANT** - the car must be entered by a current member of the ACD Club.
 - B. **ORIGIN** - The car must have been manufactured by the Auburn Automobile Co. or the Duesenberg Co. before 1940.
 - C. **CHASSIS** - The chassis must be of original origin, as defined above, and retain at least the original frame, engine, drive train and running gear.
 - D. **BODY** - Category No. 1 — An original body built before 1940, either by the Auburn Automobile Co. or a subsidiary of by a custom body builder, originally for an Auburn, Cord or Duesenberg chassis. Category No. 2 — Re-bodied — In accordance with the minutes of the Board of Directors Meeting of September 4, 1970, replica bodies will be accepted as original provided they are replicas of styles produced prior to 1938 and of original materials (wood and metal). All other cars must be appealed to the Judging Committee for classification.
5. The group responsible for Meet organization will record all pertinent information such as winners, owners, etc. for use at future meets to determine eligibility of cars in Senior and Primary classifications.
6. A Director of Judging for an individual meet is appointed by the Club President or Meet Chairman. For the Auburn Reunion the Judging Co-ordinators perform organizational duties. The system for the Reunion utilizes an official Certifier of Judging (a CPA) to tally the scores from the judging teams. The combined points totals awarded by the judging teams determines the winning cars. The judging teams assigned to complete one category, thus cars competing for an award are judged uniformly by the same teams. Following the determination of the Best of Auburn, Cord and Duesenberg entries, a special judging team rejudges those cars to determine the Best of Show winner.

SCOPE OF THE JUDGING FORM

The following brief list of items to be judged is intended to serve as a general guide, especially for those teams which perform only a portion of the judging.

INTERIOR

- a. **Upholstery** - Seats, door panels and binding or welting.
- b. **Floor and Covering** - Rubber mats or carpets, including any binding, snaps, rubber grommets or leather trim.
- c. **Headliner, or Bows and Pads** - Headliner and bindings on Sedans and Convertibles including the covering and the pads on the bows that support the top.
- d. **Instrument Panel** - Check appearance, completeness, authenticity, condition and static operations, (without engine running).
- e. **Controls** - Check wheels, pedals, switches and controls which do not require engine operation.
- f. **Electrical Systems** - Interior wiring and electrical component (under-the-hood items are judged elsewhere).
- g. **Hardware** - Check handles, latches, cranks, knobs, etc. for finish, condition, authenticity and operation.

EXTERIOR

- a. **Metal Work** - check the contours and fit of fenders and body authenticity of steel, aluminum, and wood components.
- b. **Paint** - Correct color for model and make should be judged under authenticity. Condition of paint includes checks, age cracks, scratches, "orange peel", overspray, etc.
- c. **Plating** - All bumpers and handles including stainless steel molding, windshield frames and rock shields. Check the back of bumpers for smooth satin finish.
- d. **Top** - Check boots and curtains as well as tops on convertibles; use extra prudence to avoid an unfair penalty to convertibles in relationship to sedans which are competing together.
- e. **Trunk** - Check racks also, where standard; check interior body area for cars without trunks. Again, use extra care to treat all entries fairly even though not all are equipped uniformly.
- f. **Glass** - Judge condition including excess fogging or cracking of the safety laminate; check authentic shape of rear windows on convertibles; allow for safety glass replacements.

ENGINE & CHASSIS

- a. **Engine and Compartment** - Judge the visual condition and authenticity without running the engine (operational checks elsewhere). Check firewall, engine, transmission and drive train. Note authenticity of serial number for engine, chassis and body. Check horns, air cleaners, carburetor, fuel pump, etc.
- b. **Chassis & tires** - Chassis checks should include the frame, steering, springs, fuel tank, lines, any splash panels, etc. Check tires for authenticity of size (E.G. larger on 12 cylinder models, etc.), whitewall width and condition; allow for wear on driven cars.
- c. **Electrical System** - Check the generator, voltage regulator, etc. for authenticity and visual condition. Judge all electrical components and wiring except the under dash portion which is included in the Interior category.
- d. **Cooling System** - Judge the water pump, radiator, cap, hoses, clamps. Note that modern but similar radiator cores may be unavoidable in restoration, but authentic clamps of split/strap style are available.
- e. **Exhaust System** - check all parts including exhaust manifold. Most systems were finished black. Cord had double wrapped mufflers in most cases as did 1931-1933 Auburns. Most cars had asbestos on exhaust pipe at front and rear fuel tank. Strap type single bolt clamps and brackets were used. Cut-Outs were available on most cars. Flex covers over S/C external pipes should be polished and of the square lock design.

OPERATIONAL CHECK

- a. **Engine** - Car entrants should perform the operations for the judging team. The entrant should be given an opportunity to warm the engine before checks A through C, if desired. Also, complete part H when engine is running. Check starting ability; note indications of compression, starter operation, spark advance, carburetor operation.
- b. **Engine - Idle Performance** - Check for smooth idle without roll or unevenness. Speed on tach - Cord - 625 standard, 650 S/C Auburn - approximately the same. Check oil pressure and engine temperature and tach operation.
- c. **Engine - Revved Performance** - Ask entrant to increase r.p.m. smoothly; note sounds which indicate the condition of valves, bearings, water pump, etc. (this is the time to check the running operation of all engine parts and accessories). Check for excess smoke and exhaust sound.
- d. **Lights** - check operation of headlights, taillights, brake lights, dash, dimmer, etc. Check the condition of reflectors and all glass lenses. Make allowance for current safety codes (e.g. the addition of turn signals should not be penalized).
- e. **Horns** - Check authenticity and amount of chrome; check operation from original control button.
- f. **Steering** - Check for play at steering box and at all drag link and tie rod or idler arms.
- g. **Brakes** - Standing - Foot and hand - operated brakes should be checked for free travel and firm application; Check hydraulics for improper bleed-down; mechanical and hydraulic for "Spongyness".
- h. **Windshield Wipers** - Check while engine is running for fast/slow operation and all controls provided from original knobs; check blades, arms and shut-off position.

AUBURN-CORD-DUESENBERG CLUB OFFICIAL JUDGING FORM

The following two pages are devoted to a reduced reproduction of the Club's Official Judging Form. This recently adopted form is based on a 400 point rating system and is used at all authorized ACD Club concours events.

It is published herein for the benefit and reference of all our members, many of whom have never attended an ACD Meet. Our purpose here is to acquaint all owners with the rating and scoring of the specific items relevant to judging an entrant in any of our several annual concours events. This sample should be of value to those unfamiliar with our judging system to the extent that a comparative value of any item can be readily referred to and thus aid the entrant in his priorities and gauging the relative importance of any particular segment of his restoration efforts. As always, much emphasis is placed on "Authenticity" and provision is made for a graded rating of "condition" of each item.

It is hoped that this form will be a satisfactory and reasonably accurate method of selecting winners in all classes and categories. We urgently request that any comments or criticism of the judging method be forwarded to the Head Judge of any of our Meets and thereby eventually help to improve the accuracy and thoroughness of our judging methods. Your comments and suggestions will be deeply appreciated.

Anyone wishing to participate as a Judge is encouraged to apply to the Chief Judge.

REQUEST FOR CERTIFICATION APPLICATION/S

The Auburn-Cord-Duesenberg Club has approved a procedure for the certification of original A, C and D cars. Certified cars will be registered as recognized originals by the club. Registration numbers will be assigned according to the sequence of certification.

Application forms will be sent to those who request them.

List each original Auburn, Cord and Duesenberg for which you are requesting applications. Separate applications will be processed for each individual car.

The procedure of certification will be thorough. However, the final result should be well worth the effort.

List each car by year, make and model for which an application is requested.
